Giulia Marchetti

Senior Frontend Engineer · Milan, Italy · giulia.marchetti@example.com · github.com/gmarchetti-example

PROFILE

Frontend engineer with 9 years of experience, the last 5 building and maintaining design systems used by multiple product teams. Strong in React, TypeScript, accessibility and component API design. Comfortable working directly with designers on tokens and Figma libraries.

EXPERIENCE

Staff Frontend Engineer, Design System Lead — Paylane (fintech, 600 employees) · 2022 – present

- Lead a team of 4 engineers owning "Ledger UI", the React + TypeScript design system used by 14 product squads and 3 web apps.
- Migrated 220 components from styled-components to CSS variables and vanilla-extract; cut CSS shipped by 38%.
- Introduced a design-token pipeline (Figma Variables → Style Dictionary → CSS/TS) and visual regression tests with Playwright and Chromatic.
- Drove WCAG 2.2 AA compliance: audited 60 screens, fixed 300+ issues, added axe checks to CI.

Senior Frontend Engineer — Boxwise (logistics SaaS) · 2019 – 2022

- Built the shared component library from scratch in React and Storybook; adopted by 6 teams.
- Rewrote the shipment tracking dashboard (React, React Query, D3), improving LCP from 4.1s to 1.6s.
- Mentored 3 junior engineers; ran the frontend guild.

Frontend Developer — Studio Nove (digital agency) · 2016 – 2019

- Delivered 20+ marketing sites and web apps in Vue and React for retail and banking clients.

SKILLS

React, TypeScript, Next.js, Vue, CSS architecture, design tokens, Storybook, Playwright, Jest, Testing Library, WCAG / ARIA, Figma, Style Dictionary, D3, Node.js (tooling), GitHub Actions

EDUCATION

BSc Computer Engineering, Politecnico di Milano, 2016

TALKS AND OPEN SOURCE

Speaker at "Design Systems Italia" 2023 and 2024 on token pipelines. Maintainer of a small open-source focus-trap utility (1.2k GitHub stars).
