Tomás Reyes

Full-Stack Engineer · Barcelona, Spain · tomas.reyes@example.com

SUMMARY

Full-stack engineer with 7 years of experience shipping product features end to end. Backend-leaning (Node.js, Go, PostgreSQL) with solid React experience. Previously an engineering manager for 18 months; returned to an individual-contributor track by choice.

WORK EXPERIENCE

Senior Full-Stack Engineer — Cartly (e-commerce platform) · 2023 – present

- Own the checkout service (Go, PostgreSQL, Kafka) handling 1.5M orders per month; reduced p95 latency by 45%.
- Built the merchant admin pages in React and TypeScript using the company's existing component library (Material UI).
- Introduced feature flags and trunk-based development for the team of 7.

Engineering Manager — Rutas (mobility startup) · 2021 – 2023

- Managed 8 engineers across mobile and web; hired 5.
- Coordinated the rebuild of the rider web app in Next.js; set up the first shared UI kit with a designer contractor.

Software Engineer — Rutas · 2018 – 2021

- Built REST and GraphQL APIs in Node.js; implemented route pricing and payments with Stripe.
- Contributed to the React web app; wrote the first end-to-end tests with Cypress.
